

Forum on

Green & Sustainable Development for Plumbing System

Introduction: The world's most eminent climate scientists have confirmed that climate change is proceeding more rapidly and powerfully than our worst case scenarios predicted. These scientists are calling for urgent and renewed effort to reduce emissions to safeguard our future. Having been a professional Chartered Plumbing Institute, it is our obligation without any hesitation to help and encourage our local plumbing industry to achieve such reduction. Together with the support from UK Headquarters as well as HKSAR's initiatives in promoting green plumbing / sustainable and environmental design, we will organize a half-day Forum in Green and Sustainable Development for Plumbing System on 31st October 2009.

Speakers: **Ir LAM Wai Kei Victor**, Engineer/Resources Planning (2) of Water Supplies Department, "*Water Efficiency Labelling Scheme*"

Presentation by Mr. CHAN T.C. Kenneth, Vice-Chairman of CIPHE – HKB, "*Green Plumbing – The UK Perspective*"

Ir LO Chi Wah Anthony, New Product Development Manager of CLP Power Hong Kong Limited (BMD/Business Account), "*Energy Efficiency Heat Pump with Hot Water System*"

Ir CHUNG Chi Leong Colin, Director & Vice President of Parsons Brinckerhoff (Asia) Ltd., "*Green Rating System for Water Efficiency*"

Language: Cantonese supplemented with English

Organized By:

The Chartered Institute of Plumbing and Heating Engineering – Hong Kong Branch (CIPHE – HKB)

Supporting Organizations:

The Asian Institute of Intelligent Buildings (AIIB)

The Building Services Operations and Maintenance Executives Society (BSOMES)

The Chartered Institution of Building Services Engineers – Hong Kong Branch (CIBSE-HKB)

Energy Institute – Hong Kong Branch (EI-HKB)

Hong Kong Association of Energy Engineers (HKAEE)

The Hong Kong Institution of Engineers – Building Services Division (HKIE-BSD)

Hong Kong Plumbing and Sanitary Ware Trade Associated Ltd. (HKPSWTA)
