Report on *Technical Visit to “Emissions Control Project (EC Project) of CLP Power Hong Kong Limited” on Saturday, 21 May 2011*

In a sunny morning on 21 May 2011, The Energy Institute (Hong Kong Branch) [EI (HK Branch)] organized a Technical Visit to “Emissions Control Project (EC Project) of CLP Power Hong Kong Limited” with 18 members and guests participated in it.

The Visit started with a warm reception by Mr Thomas Brown, Project Manager of EC Project, and his detailed introduction on EC project followed by subsequent plant tour. Before the end of the Visit, Thomas and the participants had a chance in sharing their views and experience in emission control through an interactive discussion.

Our members and guests have learnt a lot from the Visit and an enjoyable trip. Special thanks to CLP Power Hong Kong Limited.
